Book Review: ACLS 2013 the ACLS Arrhythmia Pocket Brain ...

INTRODUCTION. Epilepsy is a group of neurological disorders, which is characterized by epileptic seizures ().The exact cause of seizures is unknown, but can be intensified by brain injury, stroke, brain tumors, infections, and birth defects (2,3).In general, excessive and abnormal nerve cells activity in the cerebral cortex leads to epileptic seizures ().

Synthesis, molecular docking, and antiepileptic activity ...

INTRODUCTION. Many studies over past 2 decades show depression disorder is one of the most important world health problems. According to the WHO reports, depression will be the second cause of disability, after heart diseases, in the developed countries toward 2020.[] World Health Survey also showed that depression is more harmful on man health than other diseases such as angina, arthritis ...

Role of Heart and its Diseases in the Etiology of ...
