### Reef Fish Identification: Florida Caribbean Bahamas by ...

*Acanthurus coeruleus* is common off the coast of Florida, the Bahamas, and other places in the Caribbean Sea, including Bonaire. Blue tangs are very common in Belize and especially Ambergris Caye. Their range extends to the Gulf of Mexico, New York, southern Brazil and east to Ascension Island.

**Acanthurus coeruleus - Wikipedia**

Large-scale coral bleaching has progressively become more widespread and severe. Currently, the Florida Reef Tract is experiencing a historic disease event with stony coral tissue loss disease affecting half the reef-building species. Coral reefs have been in decline in Florida and the Caribbean since the 1970s.
