### **Sound And Script In Chinese**

In Sound and Script in Chinese Diaspora, Jing Tsu explores the new global language trade, arguing that it aims at more sophisticated ways of exerting influence besides simply wielding knuckles of power. Through an analysis of the different relationships between language standardization, technologies of writing, and modern Chinese literature around the world from the nineteenth century to the present, this study transforms how we understand the power of language in migration and how that is ...

Chapter 2, “Chinese Lessons,” sets the stage for the question of sound and script in diasporic Chinese cultures by revisiting the debates around script reforms at the end of the nineteenth century. It analyzes a wide range of phonetic script models proposed by Wang Zhao, Mok Lai Chi, Lu Zhuangzhuang, Yang Li, Li Wenzhi, and others.

## **Chinese Pronunciation: The Complete Guide for Beginner**

General writing systems all analyze the linguistic form into constituents of meaning or sound. Chinese script is primarily a logographic script; each word or morpheme is represented by a single graph or character. Two words, even if they sound exactly the same, will be represented by entirely dissimilar characters.
